

Generation process of Complex Number and Imaginary Diamond of transition formula

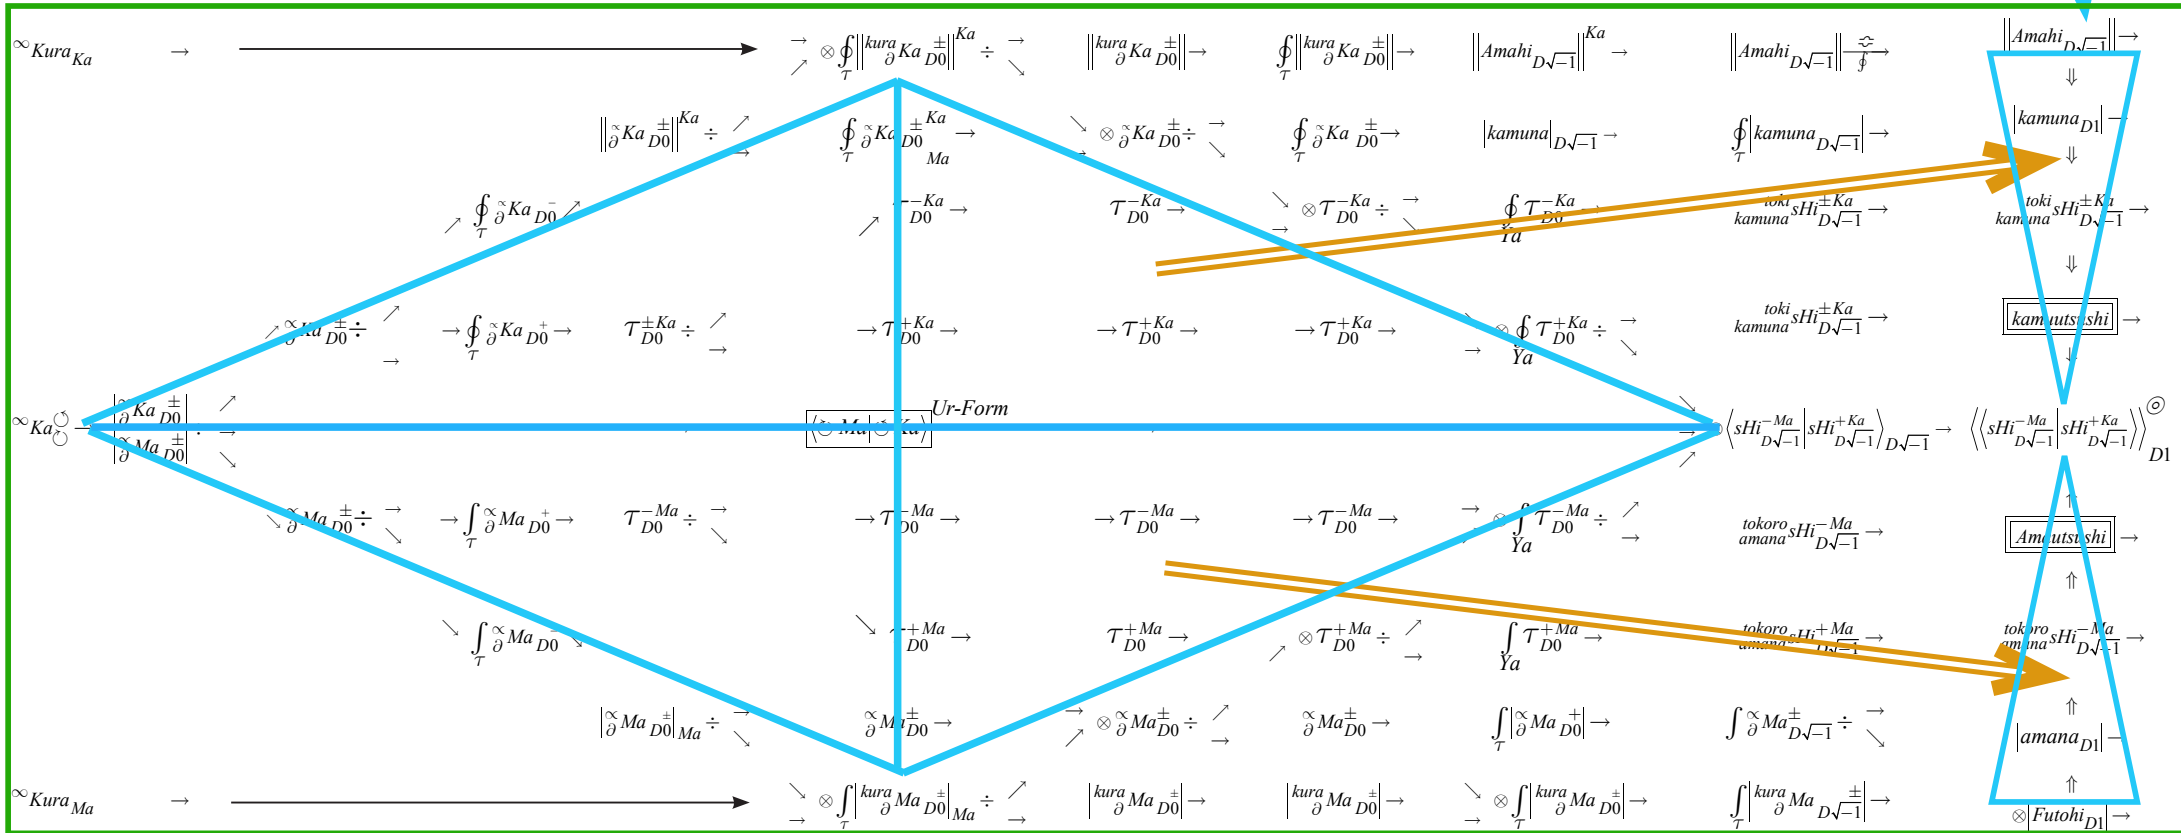

"Axiomatic system K" is organized in the axiomatic system relating to the world of Latent-Phenomenon, and it is included in the range shown here. One of the characteristics of "axiomatic system K" is that symmetry connecting the Latent-Phenomenon world and the phenomenal world exists.

genetic inverted Imaginary-Diamond is
Complex Number

"genetic inverted i-Diamond" belongs to the domain of Axiomatic system A

Imaginary Diamond is KaMa-Parallel Univers Model

Imaginary Daiamond figure generated by the transition of <Ka> shows that there is magnificent symmetry over the universe between Latent-Phenomenon and the phenomenon. I would like to call this "Kamu Symmetry" or "Mirror-Symmetry"
