

"Calabi Yau Manifold" with a Global structure will be the creator of Monstrous world and Maximal Universe

Misode Similarity ~ Mirror Symmetry

I think that the transition from here goes to "Amahi" and is therefore oriented toward "making Monsters of manifolds". Therefore, what is currently contemplated is the prediction that "Monster type Calabi Yau Manifold" will exist from the relationship between Vertex Operator Algebra and Monstrous moonshine.

It is unknown how Karabi·Yau Manifolds will transition in the future. Since Transition diagram of the future is completed, "Kamu Zero Dimension (D0) to 5 Dimension (D5)" has been completed, please refer to it.
